Coconut/Nut/Date Rolls

Savannah Skye (http://geocities.com/savvy1007/)

These make a really sweet all natural treat that almost all can enjoy... excepting those with nut allergies... but you can always skip the nut adding... though they are better with the nuts...

Preparation:

At most health food stores, you can buy all these ingredients in bulk, which I do... better for the environment...

Tools needed: - Huge bowl - Potato masher

To make them:

- In large bowl mash dates with potato masher (make sure to check each date to make sure even the pitted ones are without pit). If they seem too dry add just enough hot water to moisten them
- Crush mixed soft nuts and mix into the mashed dates
- Roll the date/nut mix into balls
- Fun part - spread out shredded coconut on table and roll the date/nut balls around until sufficiently covered with coconut
  hence the name Yummy Coconut/Nut/Date Rolls...

- happy eats
